## PREP PROGRAM FOR THE IELTS

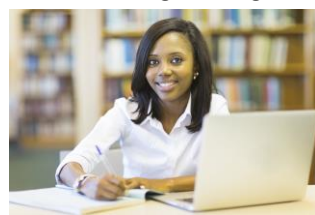

### PRACTICE TESTS

LearningU's Practice Test for the IELTS is a simulated test that is offered fully online and uses the same grading rubric used on the IELTS. The speaking and writing sections of the tests are scored and evaluated by trained ESL graders.

Students receive detailed feedback and advice on their performance on each type of IELTS question or task.

### PREPARATION COURSE

The program presents students with interactive exercises and intensive practice designed to significantly improve a student's reading, listening, speaking and writing scores. Throughout the course, there are simulated practice tests, as well as educational tools that teach students about

idioms, synonyms, and how to recognize the variety of question types they will experience on the IELTS.

### CUSTOM BRANDING

Our partnerships allow organizations to offer the Prep Program (course & practice test) in a fully branded online environment. This lets you present the content and experience to your students in a format this is recognized and trusted.
